Skills

- Python
- SQL
- TensorFlow
- Keras
- Deep Learning
- Computer Vision
- Google Cloud Platform
- Vertex AI
- Docker
- Git

Languages

Thai, English (IELTS 6.5)

Profile

ML engineer focused on computer vision for manufacturing quality control. Deployed defect-detection models to 6 factory lines.

Experience

Machine Learning Engineer — Eastern Smart Factory Co., Ltd. (2023 – Present)

- Built defect detection with TensorFlow and Keras; false rejects down 40%.
- Trained and served models on Google Cloud Platform (Vertex AI) with Docker.

Research Assistant — Burapha University (2022 – 2023)

- Deep learning experiments for fruit grading from images.

Education

M.Sc. Data Science — Burapha University, 2021–2023
